

KORYX COPPER ANNOUNCES CLOSING OF C\$5 MILLION SIDECAR NAMIBIAN NON-BROKERED PRIVATE PLACEMENT FOR TOTAL FINANCING OF C\$51 MILLION

Not for distribution to United States newswire services or for dissemination in the United States.

Vancouver, British Columbia – January 26, 2026 – Koryx Copper Inc. (the “Company”) (TSX-V: KRY) is pleased to announce that it has closed its previously announced sidecar non-brokered private placement offering (the “Placement”) to predominantly Namibian institutional and retail investors, of an aggregate 2,040,816 common shares of the Company (the “Common Shares”) at a price of C\$2.45 per Common Share for aggregate gross proceeds to the Company of C\$5,000,000. The terms are consistent with the CAD\$46M Bought Deal financing announced on January 6, 2026 and closed on January 20, 2026.

The Company paid finder's fees of C\$150,000 to Cirrus Capital (Pty) Ltd in connection with the Placement. The Company intends to use the net proceeds of the Placement to advance technical studies on the Haib Copper Project and continue exploration on the property, working capital and general corporate purposes. All Common Shares issued under the Placement will be subject to a hold period expiring four months and a day from the date of issuance.

The Placement remains subject to the final approval of the TSXV Venture Exchange (the “TSXV”).

This news release does not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of any of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful, including any of the securities in the United States. The securities described herein have not been, and will not be, registered under the U.S. Securities Act or any state securities laws and may not be offered or sold within the United States or to, or for account or benefit of, U.S. Persons (as defined in Regulation S under the U.S. Securities Act) unless registered under the U.S. Securities Act and applicable state securities laws, or an exemption from such registration requirements is available.

About Koryx Copper Inc.

Koryx Copper Inc. is a Canadian copper development Company focused on advancing the 100% owned Haib Copper Project in Namibia whilst also building a portfolio of copper exploration licenses in Zambia. Haib is a large, advanced (PEA-stage) copper/molybdenum porphyry deposit in southern Namibia with a long history of exploration and project development by multiple operators. More than 80,000m of drilling has been conducted at Haib since the 1970's with significant exploration programs led by companies including Falconbridge (1964), Rio Tinto (1975) and Teck (2014). Extensive metallurgical testing and various technical studies have also been completed at Haib to date.

Additional studies are underway aiming to demonstrate Haib as a future long-life, low-cost, low-risk open pit, sulphide flotation copper project with the potential for additional copper production from heap leaching. Haib has a current mineral resource of 511Mt @ 0.33% Cu and 51ppm Mo for 1,668kt of contained copper and 25.9kt contained Mo in the Indicated category and 308.9Mt @ 0.31% Cu and 40ppm Mo for 949Mt of contained copper and 12.4kt contained Mo in the Inferred category (0.15% Cu cut-off).

Mineralization at Haib is typical of a porphyry copper deposit and it is one of only a few examples of a Paleoproterozoic porphyry copper deposit in the world and one of only two in southern Africa (both in Namibia). Due to its age, the deposit has been subjected to multiple metamorphic and deformation events but still retains many of the classic mineralization and alteration features typical of these deposits. The mineralization is dominantly chalcopyrite with minor bornite and chalcocite present and only minor secondary copper minerals at surface due to the arid environment.

Further details of the Haib Copper Project are available in the corresponding technical report titled, "Preliminary Economic Assessment of the Haib Copper Project, Namibia, National Instrument 43-101 Technical Report" dated effective October 8, 2025 (the "**Technical Report**"). The Technical Report and other information is available on the Company's website at <https://koryxcopper.com> and under the Company's profile on SEDAR+ at www.sedarplus.ca.

Cautionary Statement Regarding Forward-Looking Information

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes, without limitation, statements regarding the use of proceeds from the Company's recently completed financings and the future or prospects of the Company. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are necessarily based upon a number of assumptions that, while considered reasonable by management, are inherently subject to business, market, and economic risks, uncertainties, and contingencies that may cause actual results, performance, or achievements to be materially different from those expressed or implied by forward-looking statements. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, other factors may cause results not to be as anticipated, estimated, or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. Other factors which could materially affect such forward-looking information are described in the risk factors in the Company's most recent annual management discussion and analysis. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
